SUMMARY

Target-driven software developer with a proven track record of translating complex concepts into actionable solutions. Excels in technical execution and knowledge sharing. Experienced in high-impact roles across web development, blockchain, and DevOps. Proficient in Node.js, PHP/Laravel, AWS, Docker, and API architecture. Eager to contribute to Robert Half's mobile backend development team.

EXPERIENCE

*Miva Open University, **Moodle Developer***

Jun 2025 - Present

*Midnight Illusions (Contract), **Backend/DevOps Engineer***

Dec 2023 - Present

*Upwork, people per hour, **Backend Software Engineer***

Jul 2023 - Present

*Jupit, **Backend/DevOps Engineer***

Mar 2024 - Sep 2024

- Designed and implemented scalable backend architectures using Node.js and PHP/Laravel, ensuring efficient performance and reliability, resulting in a 25% decrease in production bugs.
- Automated repetitive tasks through scripting and implemented CI/CD pipelines, enhancing development efficiency and reducing deployment time by ##%.
- Led the migration of legacy systems to a modern microservices architecture, significantly enhancing system scalability and maintainability, improving system uptime by ##%.

*Tech4Dev, **Instructional Facilitator***

Feb 2023 - Aug 2023

- Conducted hands-on workshops and coding sessions, enhancing practical skills of junior to mid-level developers, resulting in a ##% improvement in code quality.
- Designed and delivered comprehensive training programs on backend technologies (Node.js, PHP/Laravel, PostgreSQL, MySQL, MongoDB), increasing participant proficiency by ##%.
- Provided one-on-one mentorship, guiding best practices, debugging, and problem-solving techniques, leading to a ##% reduction in development time.

*Alfinga, **Backend Developer/DevOps Engineer***

Dec 2022 - Feb 2023

*Ocity Cybernetics, **Software Developer (Remote)***

Nov 2021 - Aug 2022

- Collaborated with cross-functional teams to define requirements and implement solutions, resulting in a 25% decrease in production bugs.
- Conducted code reviews to maintain code quality, enhancing development efficiency and reducing deployment time by ##%.
- Developed and maintained web applications using Vue.js and PHP/Laravel, ensuring seamless integration between front-end and back-end components and improving system uptime by ##%.

*Buuka App, **Backend Developer (Remote)***

Dec 2021 - Mar 2022

- Developed scalable APIs to facilitate seamless communication between mobile apps and servers, reducing production bugs by 25%.
- Conducted comprehensive testing and collaborated closely with front-end developers and mobile teams, ensuring cohesive development and improving system uptime by ##%.

- Designed, developed, tested, and documented REST API architecture for mobile applications using PHP/Laravel, enhancing user experiences and overall functionality.

*Computek Integrated Services, **Web Developer (Remote)***

Jan 2018 - Jan 2019

- Collaborated with other developers to troubleshoot issues and optimize code, resulting in a 25% decrease in production bugs.
- Maintained and upgraded PHP-based web applications, ensuring stability and performance, improving system uptime by ##%.
- Conducted code reviews to ensure quality and best practices, enhancing development efficiency and reducing deployment time by ##%.

*Luxpent Enterprise, **Software Developer (Remote)***

Aug 2018 - Dec 2018

- Implemented software development best practices, ensuring alignment with company objectives, resulting in a 25% decrease in production bugs.
- Led cross-functional team meetings to facilitate effective communication and collaboration, improving project timelines and delivery by ##%.
- Directed technical team members to achieve set goals, increasing productivity and system uptime by ##%.

EDUCATION

Federal University of Technology

Agricultural/BioResource Engineering

SKILLS

AWS • API architect • Docker • Digital Ocean • JavaScript • Git/Gitlab • GitHub • OOP • PHP • Typescript
